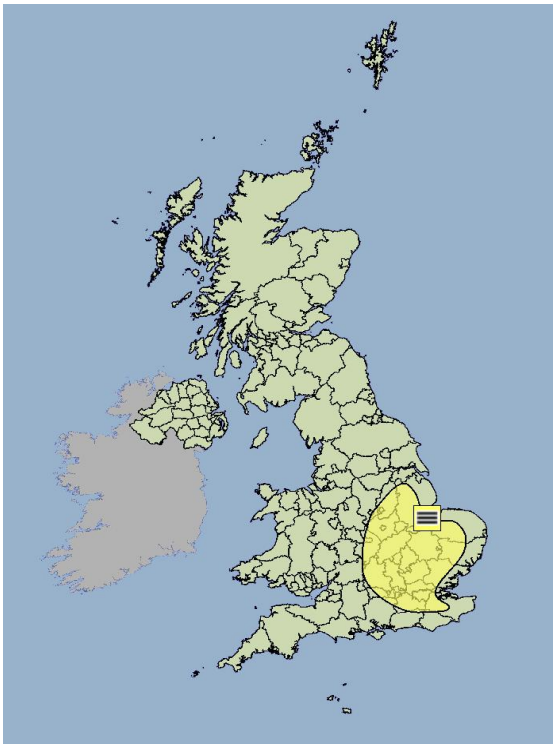
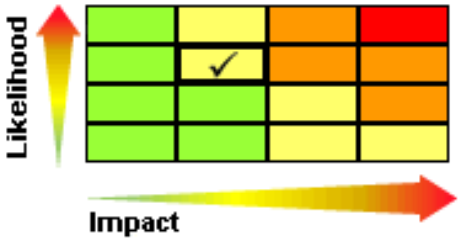
National Severe Weather Warning Service





Chief Forecasters Assessment
The combination of light winds and a moist airmass, is leading to fairly widespread fog this morning. A general increase of cloud will tend to lift the fog onto the higher ground by the end of the morning, with disruption becoming less likely as a result.

The Met Office have issued a **Yellow Warning** of **Fog**

Valid from **05:00 on Mon, 12th Dec 2016** until **11:00 on Mon, 12th Dec 2016**

Areas of fog, some dense, with visibilities below 100 metres, will continue to affect parts of central, eastern and southeastern England through Monday morning. Please be aware of possible disruption to travel, and the need to allow longer for journeys.

Conditions should gradually improve from the south later in the morning.
